

General - The ZOOL-IL list is intended to facilitate communication among members of the Israel Zoological Society and in general, among zoologists in Israel. There are more than 350 subscribers to ZOOL-IL, and replies get sent through the list, or directly to the originator of the question. The list is also used to disseminate information and announcements among the members of the society, including conference days etc.

Subscription - There are two options for subscription: A. by E-MAIL To subscribe to this list, send a message to the list server : listserv@listserv.technion.ac.il with an empty subject line and with one line in the body of the message: subscribe ZOOL-IL Your_First_name Your_Last_name (replace your name in the appropriate place). B. Through the web You can subscribe to the list also through ZOOL-IL's archives page on the list server at : <http://listserv.technion.ac.il/archives/zool-il.html> New Procedures in the Subscription: Subscription is not fully automatic anymore: the new subscriber sends the subscription request as usual to the server, but the request to subscribe needs to get approved before it is accepted by the server. This may take a day or two until the list manager sees the current requests and deals with them, but normally not more than that (unless he is traveling overseas). This procedure has been introduced to increase the security of our system. If you get rejected or do not get the confirmation of subscription after several days, please send an e-mail message directly to bouskila@bgu.ac.il

Posting Messages - To post a message on ZOOL-IL (it will automatically reach all subscribers of the list) you have to send it to the following address : ZOOL-IL@listserv.technion.ac.il Only subscribers to ZOOL-IL may post messages. Subscribers to the list may post messages also through ZOOL-IL's archives page on the list server at: <http://listserv.technion.ac.il/archives/zool-il.html> Depending on the settings of your subscription, you will or will not get a copy of the message back to you (you can change the setting through this web page).

Archives - The list has been running since 1995. Subscribers to ZOOL-IL can view all submissions since 1998 through the web (after logging-in by their email address and a password that they will have to choose) at : <http://listserv.technion.ac.il/archives/zool-il.html> The archives have a very powerful search engine that scans all the messages that were ever posted through the list. The results can be sorted by several convenient ways (date, author, etc).

Unsubscribing from ZOOL-IL - To remove yourself from the list, you should send a message with the following line: signoff ZOOL-IL to the list server address listserv@listserv.technion.ac.il . You can unsubscribe from the list also through ZOOL-IL's archives page on the list server at: <http://listserv.technion.ac.il/archives/zool-il.html> . Problems with ZOOL-IL and its server should be directed to the list manager , Amos Bouskila, at : bouskila@bgu.ac.il .
